

Jade Edwards

“At Carmel all the staff are so enthusiastic and are willing to help you with anything you need. I really loved my time there.”

High

School: Wade Deacon

Achievements at Carmel: Chemistry (A*)
2017-2019 Mathematics (A)
Biology (A)

After Carmel: University of York
Chemistry

I am really enjoying my time at York, I have met so many new people through my course and through joining societies such as netball and dance; everyone is so lovely here. I am finding my course challenging but very rewarding and interesting. The training here regarding lab work is great, because of this I am now thinking of doing a year in industry as part of my masters. I can't thank Carmel enough for preparing me for this next part of my life!
