

Adam Cao

“Carmel has really prepared me for university by giving me taste of guided independence in my studies. I've never had such a supportive and effective group of tutors, especially the Maths department! Carmel really does give you the support required to achieve anything you want to after A Levels.”

High School:

Childwall Sports Science Academy

Achievements at Carmel:
2017-2019

Photography (A*)
Maths (A)
Computer Science (A)
Extended Project (C)

After Carmel:

King's College London Computer Science

University life at Kings College is fantastic and excitingly challenging, studying Computer Science at a higher level is so intriguing and explorative. I've joined multiple clubs such as a robotics society as well as badminton. During/after my degree I plan to run my own startup!
