

# Fern Morgan

*“At first the idea of going to college was daunting because I didn't know many people. However, my teachers made me feel very welcome. I have thoroughly enjoyed my time at Carmel thanks to the interesting subjects, high-quality teaching and all the amazing friends I have made!”*

## **High School:**

## **Broughton Hall**

## **Achievements at Carmel:**

Geography (A)  
Economics (A)  
Business Studies (A)

2017-2019

## **After Carmel:**

## **University of Leeds**

BSc Sustainability & Environmental Management

I'm really enjoying my course as it includes various modules that interest me. My course mates all have the same passion about the environment as I do and we are already looking into doing volunteering together with the Environmental / Conservation Society! I've been on 2 field trips already with my course and there's a 3-day field trip to Hebden Bridge coming up soon.

I'm currently looking at integrating onto the International Masters variant which will involve me studying at a partner university in either the US, Canada or Australia in my third year of study. I'm also preparing a research project to propose to the Laidlaw scholarship team. If I'm accepted onto this, I will gain £3,000 funding to complete a 6-week research project during the upcoming summer.
