I am getting on really well at Durham Uni and have settled in very quickly. Carmel really helped with this as I felt it was a stepping stone from high school to university.

Although the night life is not like it is at home, the social aspects provided through the collegiate structure to Durham as well as joining societies here make it enjoyable nonetheless. I'm currently unsure about what I want to do in the future, but I know all the support and resources are here for me at Durham when I finally decide.
