I loved my time at Carmel. I made lots of friends and really enjoyed learning my subjects. I'm grateful for the support from all the teaching staff who helped me get to the next step in life.

So far, I'm really enjoying my university experience. My Business Management and Economics course is quite challenging at the moment but I'm enjoying the challenge. Doing my A levels at Carmel has prepared me well for life at university as well as the actual course itself. I'm not part of any clubs or societies as I'm preoccupied with my part time job alongside my studies, which is also a great way to meet more people and I'm loving the student experience of going out, independence, cooking, cleaning and generally transforming into an adult.
