A LEVEL PHOTOGRAPHY

- Photography plays an important role in an ever changing digital world
- Whether digital or analogue, photography is about visually communicating
- See and capture the world around us, composing images and manipulating lighting
- Work experience opportunities and links to creative industries

EXAM BOARD

AQA

YOU WILL

You will learn to capture images across diverse photography fields including fashion, portraiture, street, documentary, sport, fine art, and studio work.

This course also covers:

- Digital photography skills and techniques
- Editing using Photoshop, Lightroom, Premiere Pro, and InDesign
- Traditional darkroom processes
- Video and animation
- Studio lighting in a fully equipped space
- Theoretical understanding to deepen meaning and audience engagement
- How to publish and promote your work across online, gallery, and print platforms

ASSESSMENT

Component 1: Personal Investigation (60%)
A practical portfolio, supported by written material which explores a theme of your choice.

Component 2: Externally Set Assignment (40%)
A practical project which responds to one of eight starting points/themes.

YOU'LL LOVE...

You'll have access to industry workshops, work placements, and competitions at local to national levels. Through our partnership with Open Eye Gallery, you'll work on live briefs, gain exclusive experience, and take part in events and exhibitions. Trips and projects will broaden your perspective, support your development, and give you opportunities to exhibit your work publicly.

PROGRESSION

Many students go on to study a range of creative courses at prestigious universities such as University of the Arts London, Leeds Arts University, Manchester Metropolitan, Falmouth University and Glasgow School of Art.
