EXAM BOARD

PEARSON

“

My Experience

“One of my favourite parts of BTEC Applied Human Biology is how interesting the lessons are and I am always engaged and learning new things at a deeper level. I love the people in my lessons, they are fun and easy to talk to, making lessons a fun working environment! I would recommend BTEC Applied Human Biology to those who are passionate about the human body and how it works.

After Carmel College, I look forward to going to university and I would love to pursue a career as an audiologist or cardiologist.”
