EXAM BOARD

University of the Arts London (UAL)

My Experience

“This subject has allowed me to experiment in many fields of art and design equipping me with a multidisciplinary skillset, preparing me to enter the Creative Industries.

My favourite thing about studying here is the support from tutors who help to push your creative horizons and get the most out of you as an artist and designer.

Another great thing about the course is the amount of successful past students who you can speak to for advice and tips on how to improve and become more ready for the future.”
