A LEVEL PHOTOGRAPHY

- Photography plays an important role in an ever changing digital world
- Whether digital or analogue, photography is about visually communicating
- See and capture the world around us, composing images and manipulating lighting
- Work experience opportunities and links to creative industries

EXAM BOARD

AQA

YOU WILL

Learn how to capture images across a number of fields of Photography including Fashion, Portraiture, Street Photography, Documentary, Sport, Fine Art and Studio.

As part of the course you will also cover the following areas:

- Digital Photography skills, techniques and technology to improve and enhance your ability to capture effective, interesting images
- Digital editing and processing techniques and processes, including the use of Adobe Photoshop, Lightroom, Premiere Pro and InDesign
- Explore traditional and chemical based processes within our photographic darkroom
- Video capture and editing, including Animation
- Studio Lighting techniques using a designated and fully equipped Photography Studio
- Theoretical and contextual understanding to provide extended meaning and greater audience engagement

ASSESSMENT

100% coursework

- **Unit 1** Practical portfolio based on a theme of your choice (60%)
- **Unit 2** External Assignment (40%)

YOU'LL LOVE...

Our extracurricular opportunities include workshops with industry professionals, participation in local, regional, and national competitions, work placement opportunities, and the chance to exhibit your work in public galleries – including through our partnership agreement with the renowned Open Eye Gallery.

PROGRESSION

Progress to a range of degree courses, creative apprenticeships, or Carmel's UAL Art Foundation Diploma.
