A LEVEL STATISTICS

- Statistics is an application of Mathematics that is a growing field of study in its own right.
- Ideal if you want to study a numerate subject that is not pure mathematics.
- Using and understanding data is becoming increasingly important in many areas of study and employment.

EXAM BOARD
Pearson

YOU WILL STUDY

- A Level Statistics builds on the Statistics and Probability components of GCSE Maths
- How to make sense of data trends and solve statistical problems
- Prepares you for further study and employment in a range of disciplines
- Topics include data analysis, probability, data distributions, hypothesis testing

ASSESSMENT

Three exams at the end of the second year of study.

Barcelona Trip

DID YOU KNOW?

Statistics will be a major benefit to qualifications involving Psychology, Geography and Biology. Statistics would also be the perfect choice if you are planning a career in finance or business.

YOU'LL LOVE...

Our extra-curricular programme which includes problem solving workshops, trips and visits and educational talks about mathematical careers.
