Studied at Carmel

Biology	A
Chemistry	B
English Comb	B

High School

St Edmund Arrowsmith

My time at Carmel was invaluable for developing fundamental skills for my university studies and now my career.

"I look back at my time spent at Carmel with such fond memories. From spending every day with my best friends, to receiving help from supportive staff during stressful periods (particularly from my English teacher Janet).

The High Achievers+ Programme at Carmel is excellent, as it opens your eyes to the opportunities available after leaving college, as well as helping to ensure university applications are competitive when applying to Russell Group universities."
