Medicine

Class of 2021 Alumni

Higher Education

Medicine University
of Birmingham

Studied at Carmel

Biology	A
Chemistry	A
Maths	A
EPQ	A

High School

St Edmund Arrowsmith

I enjoyed my time at Carmel. All the staff were very supportive and caring.

"I have been enjoying studying Medicine at the University of Birmingham.

The content is interesting to learn and the early clinical exposure that we receive through our placement has been exciting and paramount to linking the theoretical content delivered in lectures with the actual clinical applications in day to day medicine.

The staff at Carmel College have been very helpful throughout the two years supporting me with my education as well as my application process and for this I am very grateful."
