

Lee Hodgetts

Film & TV Production

Class of 2016 Alumni

Carmel really opened my eyes to all the exciting possibilities that life has to offer. For the first time, I found subjects that really appealed to me and which shaped the way I thought about the world. The campus at Carmel felt fresh and exciting, and provided a great environment for innovation.

“During my university studies I took a year out (a placement year) where I worked for the Walt Disney Company in London as a Marketing Intern for Disney Channels, Europe, Middle East and Africa.

Now that I've completed my degree I am focused on building a screenwriting career and I recently won a playwriting contest which means my play will hopefully be showcased at the London Southwark Playhouse Theatre with a director and actors attached when Covid restrictions allow.

Currently I am working at a care home as an Activity Co-ordinator which I absolutely adore. This year has been hard on the care home residents and it is my job to bring much needed fun, interaction and entertainment.”

Higher Education

Film & Television
Production, York

Studied at Carmel

Film Studies	A
