I really enjoyed my time at Carmel College and I am very grateful for the opportunities offered to gain valuable work experience as well as the chance to make lifelong friends.

At Carmel, the teachers and staff were very supportive and really inspired me to work to the best of my ability and help me achieve the grades I was striving for.

After leaving Carmel, I studied Law with Criminology at the University of Huddersfield and successfully graduated with a First Class Honours degree. When I left uni, I was able to successfully gain a place on a Graduate Programme and am currently working as a graduate commercial underwriter at Together, a leading UK specialist lender. Many of the skills that I developed during my studies at Carmel are implemented throughout my role as a commercial underwriter, such as being able to prioritise my workload and meet strict deadlines."
