Medicine

Class of 2022 Alumni

Higher Education

Medicine
University of Liverpool

Studied at Carmel

Biology	A*
Chemistry	A
Mathematics	A

High School

Wade Deacon

I am very grateful to Carmel for all of the structure and support they provided me academically and pastorally. I am forever thankful for the fantastic quality of teaching I received.

"I'm really enjoying my course and have fully settled into university life and found what works for me.

My time at Carmel gave me an advantage with the person-centred /holistic side of medicine. The High Achievers+ Programme facilitated my application, and the summer school and events I attended allowed me to gain skills and have a better idea of what to expect."
