

Ryan Smith

Engineering

Class of 2022 Alumni

I can't stress how much the teaching style at Carmel prepared me for studying at university. All of the staff were incredibly supportive and went above and beyond to make sure I succeeded.

"I'm really enjoying my time at Cambridge. It was a big shock to me at first, both culturally and academically, but I quickly found my feet and I feel as though I've settled in well.

The Engineering course is intense but incredibly fun. It covers a range of disciplines across the first two years, so I've been able to explore topics I never encountered at GCSE/A Level and discover passions for things I never thought I would have enjoyed. My supervisors have been great in making sure that I understand the lecture material, as we cover content at a very fast rate."
