

Jade Edwards

Nuclear Lab Project Manager

Class of 2019 Alumni

I wouldn't be where I am today if I hadn't have chosen to go to Carmel. The teachers (particularly Adam Munro) were so engaging and genuinely wanted you to do well. Other than the A levels themselves, there was a lot of extra help regarding university and careers support which I don't think I would have been able to access anywhere else.

"I have recently completed my Masters in Chemistry at the University of York. I spent a year in industry which I can highly recommend doing as work experience is so important when finding a job. I graduated with a 2:1 and went straight into my role as an assistant project manager at the national nuclear laboratory!. University opened my eyes to nuclear science and from early on I realised how important it was and how I wanted to be involved."

Higher Education

Chemistry
University of York

Studied at Carmel

Biology	A
Chemistry	A*
Maths	A
