

Lauren Norton

Veterinary Medicine

Class of 2019 Alumni

I really enjoyed my time at Carmel College. It enabled me to progress onto the Veterinary course by the great support of my teachers, especially when it came to writing my personal statement and interview prep. Carmel challenged and pushed me to get the best grades I could achieve whilst supporting extra curricular activities.

“I am currently studying 4th year of Veterinary Medicine at Nottingham University. This is year four out of five of my degree. I enjoy lectures, practicals and workshops 9-5 at university. I engage in a multitude of extra curricular activities and societies!”
