AAQ EARLY CHILDHOOD DEVELOPMENT

This course is designed to equip you with essential knowledge and skills to support children's growth from birth to eight years. You'll explore child development theories, safeguarding and health and safety practices, the importance of play in learning, and how research influences early years settings.

This qualification prepares you for further study or a career in early childhood education, helping you make a positive impact on children's lives.

EXAM BOARD

Pearson

YOU WILL STUDY

Children's Development

Children's developmental progress from birth up to eight years, including the theories, principles and factors relating to development, and the potential impact of a range of factors on a child's progress through the developmental milestones.

Keeping Children Safe

Health and safety and safeguarding responsibilities of an individual working in an early years setting; emergency best practices and when to address concerns about a child's welfare.

Play and Learning

The concept of play, the influence of theories and approaches to play, and the benefits of play and learning activities for children.

Research and Reflective Practice

The influence of research findings on policy and provision for children and how this influences the behaviours and expectations of an individual working in an early years setting.

YOU'LL LOVE...

Enjoying enrichment opportunities such as visits from guest speakers and trips and visits.

ASSESSMENT

Assessment will be carried out through different methods:

- Written examinations
- Synoptic assessment
- Assignments
