Psychology	A

High School

Archbishop Blanch
High School

Carmel offered incredible guidance and the genuine care each teacher displayed for students made me believe in myself too. Carmel was the best decision I made. Thanks to the teachers I achieved grades I never thought I would and was set up perfectly for my next step. I couldn't speak highly enough of the teachers and teaching

I studied Psychology at the University of Leeds and graduated in July. I had an amazing time and am now working at the National Wealth Fund, a sustainable infrastructure bank based in Leeds. I am on a rotational scheme learning all about Human Resources and Strategy. University was amazing and provided more than just a degree.
