**My time at Carmel College helped me grow into the person I am today. I developed academically and built the life skills that now shape how I learn, lead, and work.**

“Through the Elite Sports Programme, I earned a sports scholarship to Manchester Met and studied BSc (Hons) Coaching in partnership with Manchester City FC. Alongside my degree, I completed school placements, captained the football team, played at the Etihad Stadium, and competed in water polo at National League and university level, forming lifelong friendships. Today, I coach with LSSP, supporting young people to discover the power of sport.

Looking back, Carmel gave me the academic grounding, confidence, and resilience to thrive at university and turn my passion into a purposeful career, it didn’t just prepare me for university, but for who I am today.”
